TECHNICAL SKILLS

Strong: JavaScript (ES5/ES6), React, Redux, jQuery, Bootstrap, HTML5, CSS3, Axios/AJAX, APIs, Flexbox, Agile, Materialize, JSON

Experienced: PHP, MySQL, NodeJS, Express, MongoDB, Firebase, Regex **Tools:** Git, Github, Meistertask, Chrome Dev Tools, Postman, AWS, Figma

APPLICATIONS

Happy Camper

Live | Github

- A mobile-first camping assistance tool that searches for camp sites in the requested area
- Implemented Service Workers to cache selected camp site information for offline usage
- Responsible for developing the client side with React for reusable UI components in various pages as necessary
- Used **Axios** to send POST requests to the backend to enable endpoints with the server
- Sketched wireframes with Figma and translated into HTML skeletons with necessary CSS styling
- Facilitated code collaboration alongside 3 other team members using Git

Eye Spy

Live | Github

- A scavenger hunt game that requires the user to upload an image based on the clues and description initially given about a random photo
- Images were sent over to an **AI API** called Clarifai for analysis and returned descriptions of the picture
- Made AJAX calls to Clarifai, New York Times, and Flickr, to gather information returned in JSON
- Handled API information with JavaScript to render information to the DOM by using jQuery
- Utilized HTML5, CSS3, and Bootstrap3 for framework and design of application
- Ideation of features were blueprinted in frequent **Scrum** meetings and assigned on **Meistertask**

Student Grade Table

Live | Github

- CMS that allows the user to create, read, update, and delete information from a database
- AJAX calls were made using jQuery to establish an endpoint with the server
- Created a MySQL database and incorporated PHP scripts to make changes to the data
- Utilized HTML5, CSS3, and Bootstrap3 on the client side to ensure mobile responsiveness
- Secured form validation with **Regex** to ensure client provides proper information

EDUCATION

University of California, Irvine

B.A. in Public Health Policy

LearningFuze

Accelerated Web Development Program

• 700+ hours of hands-on coding in a simulated workplace environment
